

AS 451

Product Description

This portable, hand-held, multifunctional video endoscope system features a 3.5" full color LCD Screen, a slim 5 mm diameter probe with 4 adjustable LED lights, a high performance camera module with crystal clear output. and an integrated 1W CREE flash light for dark area working assistance.

This system also features the ergonomic and robust design, users can control all the keys with one hand. The adjustable handle offers extra comfort.

The wired color monitor can be detached from the unit for remote viewing up to 1.5 meters away through cable. The stainless steel shield and overall reinforced structures ensures sturdiness and heavy duty quality.
